

GDSX Services

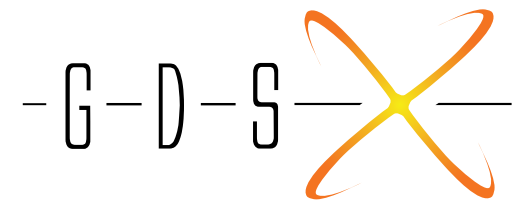

■ GDSX Services

Due to its extensive travel technology experience and stable GDS interfaces, many companies look to GDSX to meet their custom automation needs. Whether you require a one-time solution or an application that can run continuously, GDSX offers cost-effective ways to resolve your most pressing automation issues.

Types of integration solutions include:

- Custom data feeds
- Third party data exports
- Unused eTicket processing/data gathering
- PNR data mining/analysis
- COMPLETE Remote Control (CRC) development

Let us partner with you to understand your unique needs and brainstorm ways that we can help you gain a competitive advantage in your market.
